“Women Who Network: The Power of Women to Create Her Story”

Based on her book Her Story: A Timeline of Women Who Changed America, this presentation explores how women have changed the culture and economy of the U.S. throughout its history through their networking and leadership.

Her Story is a vivid documentation of the breadth and diversity of American women's achievements throughout U.S. history. This one-of-a-kind illustrated timeline highlights the awesome, varied, and often unrecognized contributions of American women since the late 1500s.

There have been women trailblazers throughout American history; women have had a profound impact on the intellectual, social, and political development of our society. But many of their contributions have gone unnoticed. The women featured in *Her Story* range from writers, artists, actors, and athletes to doctors, scientists, social and political activists, educators, entrepreneurs and inventors, and include women of all backgrounds and philosophies. Co-authors **Charlotte S. Waisman, Ph.D.** and **Jill S. Tietjen, P.E.** have compiled an extraordinary collection of women and events that provides a unique view of American history.

In her Foreword to the book, **Madeleine Albright** comments, “Spanning the centuries from 1587 . . . this book will allow women *and* men to become more aware of and informed about the women who have been instrumental in giving us the quality of life we enjoy today. Often stepping outside of the expected modes of behavior for women during their lives, the profiled women were the pioneers for their causes, their professions, or their passions. Their accomplishments have advanced the arts, the sciences, politics, and business.”
